

Power of the green™

Venetian Series Bi-Fold Door (S-9800)

STANDARD FEATURES

- True indoor/outdoor luxury living
- Panels move easily on extruded aluminum track and gather neatly to side to economize space
- Elite hardware system created specifically for folding doors
- White, Almond and Cap-Stock Bronze are standard color
- Doors available in both inswing and outswing configurations
- Strong Profiles: Perimeter frame, rails and stiles are box sections for added strength. Rails are wide and chunky for a truly solid appearance. Heavy duty Top Hung rails can also be supplied for added impact.
- Uniformity: For continuity of style and sightlines, bi-fold rails match those of panels.
- Vinyl Panel provides much better energy efficient.
- Multitude of glass options available
- Safety Glass: Doors, fixed panels next to doors and full height fixed glazing require grade 'A' safety glass.
- Double or Triple pane glazing: Keep the cold out in winter with 1-1/8" hermetically sealed insulating glass.
- 2 5/8" thick panels engineered to improve structural integrity and minimize deflection
- Our proprietary core and fascia technology with a comprehensive range of finish options for both the exterior and interior
- Narrow 4" stile and rail profiles for more glass and light
