GREEN WORLD WINDOWS TOP HUNG BI-FOLD DOOR

Modern living aspires to feelings of openness, space and light. Green World Windows Top Hung Bi-Fold doors can utilize expansive areas of glass and bring the outdoor environment into the living space of the home. Configured from two to eight panels, Bi-Fold doors use an extruded aluminum track to fold smoothly to one side, stylishly and effortlessly connecting your space to the outdoors or to another room.

Our S-9800 features an exclusive design, improved structural integrity, high performance glass, optimal weather sealing, and additional hardware for extreme weather protection and safety. A range of configurations and multiple glass options are suitable for both residential and commercial projects in the most severe climate and weather conditions.
