Bi-Fold Door

Power of the green™

**GREEN WORLD
WINDOWS**

WWW.GREENWORLDWINDOWS.COM

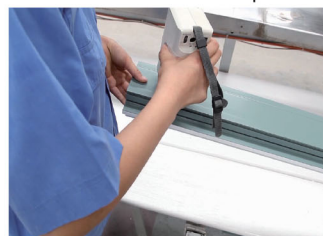

GREEN WORLD WINDOWS has state of art, technology in CAPSTOCK co-extrusion. Our uniquely designed co-extruding moulds extrude CAPSTOCK co-extrusion vinyl lineal in our EXTRUSION PLANT. The main Capstock materials is MC acrylic, which has excellent weathering stability to against color fading, and has twice hardness than paint and 10-15 times thickness than paint, has no scratch and peel issue. We offer brown, blue, chocolate, espresso, bronze and silver, and variety custom colors for doors and windows.
